

## Ring Sizing Guide

To calculate your required ring size, simply take a ring that you already own and match it to one of the sizes by placing it on a print-out of the chart below.

PLEASE NOTE: When printing this document, please do not use print options such as 'Shrink oversized pages to paper size', 'Shrink to fit', 'Expand small pages to paper size', 'Expand to fit' or 'Scale to fit' - you must print this page at 100% for it to be of use.

Alternatively, take a tape measure or use this handy measure (when printed out) and starting at zero, wrap it around the fullest part of the finger - be it the knuckle or the base of the finger - on which you plan on wearing your rented ring. Take a measurement in millimetres & then cross-reference that reading with the chart below to find your ring size.
